MAIN FEATURES

EMPLOYMENT

State comparisons

Trend estimates

The Australian and State *trend* series comparisons are given on page 25. There was an increase of 0.6% in Tasmania's employment over the year to March 1998. The largest percentage increase in employment was in Queensland (4.1%). Next followed Western Australia (2.3%), Victoria (1.6%), and New South Wales and Tasmania (each with 0.6%).

EMPLOYMENT, TASMANIA

Regional comparisons

Original terms

In the Hobart and Southern Statistical Divisions the estimate of employment in original terms in March 1998 was 99,200, and compares with 99,500 in March 1997. The estimate of employment in the Northern Statistical Division in March 1998 was 53,300 and compares with 56,000 in March 1997. The estimate of employment in the Mersey-Lyell Statistical Division was 44,600 in March 1998, and compares with 41,300 in March 1997.

(See tables 4-6, pages 3-5.)

THE LABOUR FORCE

Trend estimates

There were an estimated 219,700 persons (based on *trend* estimates) in the labour force in March 1998 and an estimated 369,200 civilian Tasmanians aged 15 years or more, yielding a labour force participation rate of 59.5%. This compares with 59.1% in March 1997.

For males, the *trend* estimate of the participation rate was 70.0%, compared with 69.6% for March 1997. For females, the *trend* estimate of the participation rate was 49.3%, compared with 49.0% in March 1997.

(See table 3, page 2.)

UNEMPLOYMENT

Trend estimates The *trend* estimate of the number of unemployed persons in Tasmania for March 1998 was 23,600. This compares with 23,400 for March 1997. The *trend* estimate of the unemployment rate of 10.8% in March 1998 compares with 10.7% in March 1997.
(See table 3, page 2.)

UNEMPLOYMENT, TASMANIA

WAGE COST INDEX:

Indexes of total hourly rates of pay (excluding bonuses)

Original terms The index of total hourly rates of pay excluding bonuses for all employee jobs in Australia increased by 0.8% from the September quarter 1997 to the December quarter 1997. For Tasmania, the index increased by 0.4%.

The largest increase in the indexes at the industry level for Tasmania was for Transport and storage (1.7%), followed by Education (0.9%) and Finance and insurance (0.6%).

The largest increase in the indexes at the occupation level for Tasmania was for Elementary clerical, sales and service workers (1.6%); followed by Professionals (0.6%).

BUILDING MATERIALS PRICE INDEXES

Original terms The price index of materials used in house building in Hobart increased by 0.5% during the March quarter 1998, and by 0.9% during the twelve months ending March 1998. All of the six State capital cities recorded increases over the twelve months ending March, with Sydney recording the highest increase over the period, at 4.1%. The weighted average of the six State capital cities increased by 2.2% over the same period.

For materials used in building other than house building, the price index for Hobart recorded an increase of 1.0% over the year ending March 1998. All of the other State capitals recorded increases with the exception of Perth, which fell by 0.6%. Sydney recorded the highest increase at 1.1%. The index for the weighted average of the six State capital cities increased by 0.6% over the same period.

Components in Hobart's price index of materials other than house building that recorded the largest increases over the year ending March 1998 were ready mixed concrete (up 3.2%), clay bricks (up 2.9%) and paint and other coatings (up 2.4%). These rises were partly offset by falls in the prices of sand and aggregate (down 5.2%) and builders' hardware (down 3.7%).

(See table 15, page 11 and table 18, page 13.)

CONSUMER PRICE INDEX

Original terms The Consumer Price Index All Groups Index for Hobart rose by 0.5% in the December quarter of 1997 and fell by 0.1% for the year ending December 1997. This compared with an increase of 0.3% for the weighted average of the eight capital cities for the December quarter, and a fall of 0.2% for the year.

The only capital city to record an increase in the index for the year ending December 1997 was Brisbane with an increase of 0.5%. Capital cities recording the largest decrease were Canberra (-1.3%) and Adelaide (-1.1%).

(See table 17, page 12.)

HOUSE PRICE INDEXES

Original terms The price index for established houses in Hobart increased by 0.3% in the December quarter 1997, but still decreased by 3.6% over the twelve months ending December. This was due to the effect of several quarters of negative change during the year. All of the eight capital cities recorded increases in the December quarter, with Melbourne being the highest at 5.3%. Hobart's increase was the smallest.

The price index for project homes recorded no change for Hobart in the December quarter, as for the previous six quarters. Canberra and Sydney indexes also recorded no change for the quarter, while most of the other capital cities recorded a small increase. Adelaide was the highest at 0.5%. The index for the weighted average of the eight capitals rose by 0.1%.

For the twelve months ending December, Adelaide recorded the highest increase at 4.8%, while the index in Canberra fell by 0.3%.

(See table 16, page 11.)

LIVESTOCK SLAUGHTERING

- Trend estimates In February 1998, the *trend* estimate for the slaughtering of cattle and calves in Tasmania was 2.2% higher than the previous month. Over the same period, the number of sheep and lambs slaughtered increased by 1.1% and the number of pigs slaughtered increased, by 1.6% to just over 6,700.
- In February 1998, the *trend* estimate of the number of cattle and calves slaughtered was 25,000 which was 13.2% above the number slaughtered in February 1997.
- The *trend* estimate for the slaughtering of sheep and lambs was 78,300 in February 1998, which was 16.6% above the number slaughtered in February 1997. This was 26.6% above the *trend* estimate for February 1996.
- The *trend* estimate of 6,700 pigs slaughtered in February 1998 was 4.8% above the number slaughtered in February 1997, and 7.0% below the *trend* estimate for February 1996.
(See table 21, page 16.)

BUILDING APPROVALS

- Original terms There were 121 dwelling units approved during February 1998 in Tasmania. This was 9.0% below the January 1998 figure of 133 and 20.9% below the number recorded for February 1997 (153).
- For the twelve months ended February 1998 there were 1,736 new dwelling units approved, 15.6% below the 2,056 units recorded for the twelve months ended February 1997.
- The value of new residential buildings approved, at current prices, in February 1998 was \$10.1 million, 14.0% below the January 1998 figure and 26.6% below the February 1997 figure.
- The value of all building approved, at current prices, in February 1998 was \$19.3 million, 30.7% below the January 1998 figure and 34.4% below the February 1997 figure.
(See table 27, page 20.)

HOUSING FINANCE

- Trend Estimates The *trend* estimate for the number of new secured housing finance commitments entered into in Tasmania in February 1998 was 853 dwellings, an increase over the previous month's figure of 844, and higher than the February 1997 figure of 830.
- The value of new commitments has risen steadily since March 1997 to the February 1998 figure of \$65.2 million. When compared with the February 1997 value of \$57.1 million, an increase of 14.2% is observed.
- Nationally, the total number of secured housing commitments entered into in February 1998 was 40,251, a decrease from the previous month's figure of 40,343. The value of these commitments decreased between January 1998 and February 1998 to \$4,612.9 million.
(See table 28, page 20.)

NEW MOTOR VEHICLE REGISTRATIONS

Original terms There were 925 new motor vehicles (excluding motorcycles) registered in Tasmania during January 1998. This was 57.0% below the 2,153 registered in December 1997 and 1.1% below the figure for January 1997 (935). Of the new motor vehicles (excluding motorcycles) registered in January 1998 in Tasmania, 12 were vehicles registered by vehicle rental businesses compared with 865 registered by vehicle rental businesses in December 1997 and 4 in January 1997.
(See table 34, page 24.)

RETAIL

Original terms In *original* terms, the estimate of retail turnover in Australia for February 1998 was \$9,945.5 million, 3.2% above the figure recorded in February 1997. In *original* terms, the estimate of retail turnover in Tasmania for February 1998 was \$245.1 million, 4.8% above the figure recorded in February 1997.

Trend estimates The *trend* estimate of retail turnover in Australia for February 1998 was \$11,276.4 million, 4.3% above the figure recorded in February 1997. The *trend* estimate of retail turnover in Tasmania for February 1998 was \$266.6 million, 3.0% above the figure recorded in February 1997.
(See table 35, page 24.)

¹ Source: Australian Dairy Corporation.
² Includes the whole milk equivalent of farm cream intake.
³ Includes butter equivalent of butter oil.
⁴ Includes spinning, weaving and carpet making. Reported by establishments which manufacture textiles only, or manufacture clothing and textiles in the one plant.
⁵ Excludes production of directory newsprint and high grade specialty paper.
⁶ Metallurgical refining index (Base: 1979-80 = 100.0) Output from selected establishments covering the smelting and refining of ferro-alloys, zinc and aluminium. The weighting pattern is based on the establishments' value added as derived from the 1979-80 Manufacturing Census. For multi-product establishments, value added was apportioned to products on the basis of gross receipts from each product.

³ Includes Higher degree, Postgraduate diploma and Bachelor degree.

EXPLANATORY NOTES

INTRODUCTION

1 This publication contains latest figures for a comprehensive range of economic indicators. Statistics shown in this publication are the latest available at the date of preparation and may be subject to revision in subsequent issues. In a number of cases figures appearing in this publication are preliminary and are subject to revision in subsequent issues. Reference should therefore always be made to the latest issue or to the statistical publication on the specific subject.

SEASONAL ADJUSTMENT AND TREND ESTIMATION

2 Seasonal adjustment is a means of removing the estimated effects of normal seasonal variation from the series so that the effects of other influences on the series can be more clearly recognised. Seasonal adjustment does not aim to remove the irregular or non-seasonal influences which may be present in any particular month. This means that month-to-month movements of the seasonally adjusted estimates may not be reliable indicators of trend behaviour.

3 The smoothing of seasonally adjusted series reduces the impact of the irregular components of the seasonally adjusted series and creates trend estimates. These trend estimates are derived by applying a 13-term Henderson-weighted moving average to all months except the last six. The last six monthly trend estimates are obtained by applying surrogates of the Henderson average to the seasonally adjusted series. Trend series are used to analyse the underlying behaviour of the series over time.

4 While this smoothing technique enables estimates to be produced for the latest month, it does result in revisions to the most recent months as additional observations become available. Generally, subsequent revisions become smaller and after 3 months have a negligible impact on the series. Revisions also occur as a result of the annual review of seasonal factors.

5 Users may wish to refer to the ABS Publication *A Guide to Interpreting Time Series – Monitoring 'Trends' – An Overview* (1348.0) for more detailed information on smoothing seasonally adjusted time series data.

RELATED PUBLICATIONS

6 Current publications produced by the ABS are listed in the *Catalogue of Publications and Products* (1101.0). The ABS also issues, on Tuesdays and Fridays, the *Release Advice* (1105.0) which lists publications to be released in the next few days. The Catalogue and *Release Advice* are available from any ABS office.

UNPUBLISHED STATISTICS

7 As well as the statistics included in this and related publications, the ABS may have other relevant unpublished data available. Inquiries should be made to Information Inquiries on (03) 6222 5800 or to any ABS office.

EFFECTS OF ROUNDING

8 Some figures have been rounded and discrepancies may occur between totals and sums of the component items.

SYMBOLS AND OTHER USAGES

n.a.	not available
n.y.a.	not yet available
..	not applicable
—	nil or rounded to zero
p	preliminary—figure or series subject to revision
r	figure or series revised since previous issue
